

## Aluminium mobile scaffold

- + TÜV-approved, suitable for a max. load of 200 kg/m<sup>2</sup> in accordance with DIN EN 1004
- + Max. working height 12.30 m (outdoors max. 10 m in accordance with DIN EN 1004)
- + The platform is made of weatherproof and anti-slip phenolic resin impregnated plywood
- + Can be assembled quickly and without the use of any tools due to its few single parts and its force-fit and form-fit crimp connections
- + Height-adjustable and braked castors to compensate differences in height on uneven grounds
- + Starting at a height of 7.30 m the easy-to-fit outriggers provide extra stability
- + Extremely safe internal ascendancy due to its non-slip, profiled rungs
- + Extremely stable due to its high-strength stabiliser

Depending on the configurations shown below additional ballast weights are required (sold separately as accessories). Please see the assembly instructions on our website [www.krause-systems.de](http://www.krause-systems.de) for more information on the quantity of ballast weights needed.
